Contact

Biogrund as distribution partner for nutraceutical and supplement ingredients offers a wide range of free services. Tailored to your project or product we assist you in the development of your solid oral dosage form.

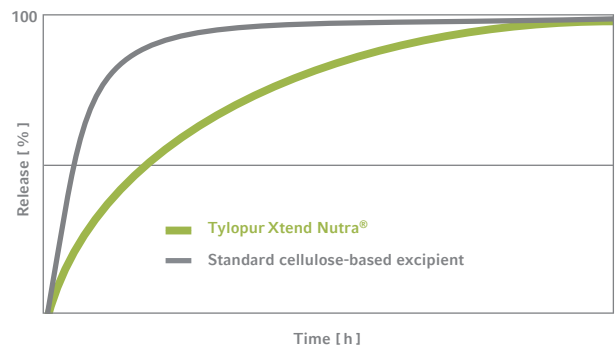

- ✔ The plant derived cellulose-based ingredient enables xtended release of active ingredients.
- ✔ Suitable for use in tablet formulations via direct compression (DC) or granulation.
- ✔ Complies to European and US guidelines and guarantees exclusion of non-conforming ingredients (Dioxides, Stearates).
- ✔ High viscosity types in 4000 and 15000 mPas are available.

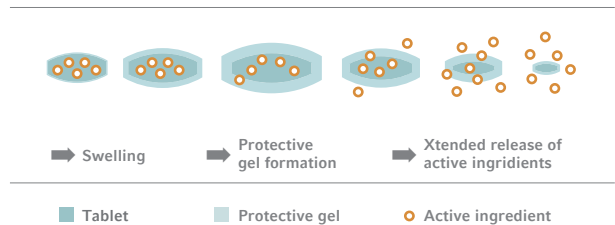

HOW IT WORKS

Release profile of typical nutraceutical compounds

Functionality of TYLOPUR XTEND NUTRA®

a brand of
ShinEtsu
