

Using a one-step-system for conventional sugar-coating? Why not?

A ready-to-use sugar-coating compound for a colored, smooth and glossy appearance of your product.

General Information on BIOGRUND

Since 1999, **BIOGRUND** has been the specialist for the homogeneous mixing of excipients and carriers. With locations in Germany, Switzerland, America and Russia, we support the food supplement and pharmaceutical industry in the development, formulation and production of solid oral dosage forms. The tailor-made and ready-to-use special powder mixtures for film coating, sugar-coating, coloring and tableting enable optimum results in a short time. Easy, fast and reliable!

Product Information IsuPolish® S

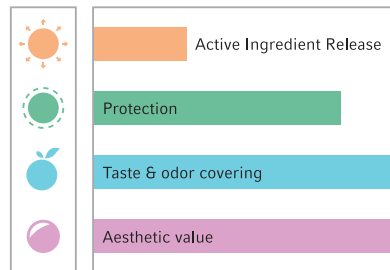

BIOGRUND's sugar-coating system **IsuPolish® S** provides a sugar dragée with excellent taste and odor masking properties. Furthermore the dragée gets a smooth and glossy appearance.

IsuPolish® S is a unique, dry milled, homogeneous blend of sucrose, pigments and additional excipients. The ready-to-use master batch is developed for the sugar-coating of solid dosage forms, such as tablets, granules, chewing gums, nuts, fruits, etc. It is easy to suspend and a reproducible high-quality sugar-coating is guaranteed. Clear, white and colored preparations can be tailor-made according to customer requirements.

IsuPolish® S can be applied by using conventional or modern sugar-coating equipment.

Regulatory and quality aspects: All **IsuPolish® S** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products, nutritional supplements, confectionary and other food applications.
