

Sugar-coating with pearl effect colors? Why not!

This ready-to-use powder compound gives your sugar-coated products a high aesthetic appearance by using Candurin® pearl effect colors.

General Information on BIOGRUND

Since 1999, **BIOGRUND** has been the specialist for the homogeneous mixing of excipients and carriers. With locations in Germany, Switzerland, America and Russia, we support the food supplement and pharmaceutical industry in the development, formulation and production of solid oral dosage forms. The tailor-made and ready-to-use special powder mixtures for film coating, sugar-coating, coloring and tableting enable optimum results in a short time. Easy, fast and reliable!

Product Information IsuPolish® G

BIOGRUND's ready-to-use sugar-coating system **IsuPolish® G** is a unique, dry milled, homogeneous blend of isomalt mixed with mineral, non-artificial Candurin® pearl effect colors and additional excipients. The use leads to lustrous effects on sugar-coated tablets, granules, chewing gums, nuts and fruits. It also offers sophisticated solutions for brand enhancement and product refinement.

The unique lustre of **IsuPolish® G** makes your drugs and dietary supplements unmistakable and helps to improve anti-counterfeiting properties and to prevent medication errors. An exquisite range of Candurin® pigments is available – from elegant silver, tempting red to glamorous gold and bronze. The positive side effect of a pure and sweet taste of this coating is given by the sugar alcohol isomalt benefiting of cariostatic properties. It is suitable for diabetics because of its low glycaemic and low insulinemic response.

Reduce your time of coating process up to 20% by using the sugar-free **IsuPolish® G**. Because of its short drying cycles the coating system accelerates your production.

The ready-to-use powder compound is easy to suspend and a reproducible high-quality sugar-coating is guaranteed. It can be applied by using conventional or modern sugar-coating equipment. Clear, white and colored preparations can be tailor-made according to customer requirements.

Regulatory and quality aspects: All **IsuPolish® G** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products, nutritional supplements, confectionary and other food applications.
