

Easy color,
anywhere,
every time?
Why not!

An aqueous or organic color excipient, a ready-to-use suspension.

Product Information

BonuTone®

BIOGRUND's ready-to-use coloring agent **BonuTone®** provides a homogeneous solid-color product. It is a unique, aqueous or organic dispersion of colors with additional excipients.

BonuTone® is a ready-to-use master batch, developed for the coloring of all kinds of creams, sugar-coating dispersions and chewing gums. It can be used in liquids in a simple and easy way.

Clear, white and colored dispersions can be individually created for different products and tailor-made according to customer requirements. A reproducible high-quality color can be guaranteed for all **BonuTone®** products. Due to its excellent compatibility with other excipients and active ingredients, customized solutions are possible – a unique appearance for your products!

Regulatory and quality aspects: All **BonuTone®** formulations are developed to meet the official regulatory requirements of the user's country for pharmaceutical products and for nutritional or dietary supplements.

Product Performance

General Information on BIOGRUND

Since 1999, **BIOGRUND** has been the specialist for the homogeneous mixing of excipients and carriers. With locations in Germany, Switzerland, America and Russia, we support the food supplement and pharmaceutical industry in the development, formulation and production of solid oral dosage forms. The tailor-made and ready-to-use special powder mixtures for film coating, sugar-coating, coloring and tableting enable optimum results in a short time. Easy, fast and reliable!
